

50 YEARS!
NPI

NPI CORP.

Printing & Product Identification

We are NPI Corp.!

A third-generation, Woman Owned Small Business leading developments in Nameplates, Industrial Product Identification, and a wide variety of Visual Communication Printing applications. From a wide selection of materials to custom in-house services, **NPI** we will meet your project objectives while exceeding your expectations.

- 50+ years of personalized service in printing, nameplates, comprehensive branding, and product identification solutions.
- Providing screen printing & digital printing on nameplates and decals, control panel fabrication, wide format graphics, and more, for projects of any size or scope.
- **NPI Corp.** is certified under International Standards ISO 9001:2015

Mrs. Marjorie B. Conley

Screen Printing

Preferred method for printing on metal due to its cost-effectiveness and durability. Ideal for printing spot colors on many parts at one time.

Digital Printing

This is an efficient and cost-effective way to surface print on any number of substrates. The inks are durable, and the turnaround is quick.

Chemical Etching

Chemicals are used to etch into metal, removing material to create a desired design. Long-lasting and best for printing on many parts at once.

Metalphoto® Anodized Aluminum

Used to make durable, high-resolution products that don't fade or chip. Metalphoto® is extremely durable, with resistance to high temperatures, abrasion, and corrosion.

Laser Marking and Engraving

A durable, economical, and permanent process that leaves a lasting mark on surfaces. More efficient than chemical etching for printing on few parts at one time.

Custom & Laser Cutting

Available for metal and non-metal nameplates. **NPI** can recommend the best punch and laser methods depending on materials, surface, and production process.

Specialty Adhesives & Laminates

Add a long-lasting adhesive or laminated finish to any printed product. **NPI Corp.** can recommend the best adhesion method for your custom needs.

Wraps & Graphics

Cars, SUVs, Pickups, Utility Vehicles...

Americans spend an average of 11.78 hours per week in their cars*, making every traffic jam a marketing opportunity!

NPI Corp. can transform your artwork into a press-ready proof and help you choose the perfect materials and finishes!

Metals

Aluminum, Stainless Steel, Brass, Metalphoto®

NPI can screen or digitally print, Metalphoto®, chemically etch, or laser mark your custom identification plates. Industrial nameplates can be made to withstand up to 25 years of outdoor exposure and may be die cut, digitally cut, laminated, or machined to your specifications.

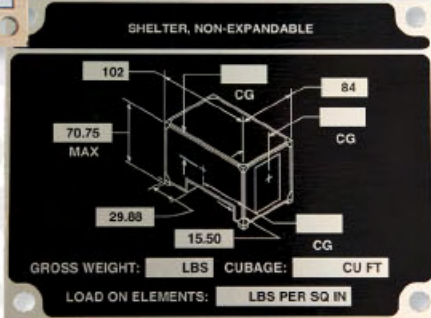

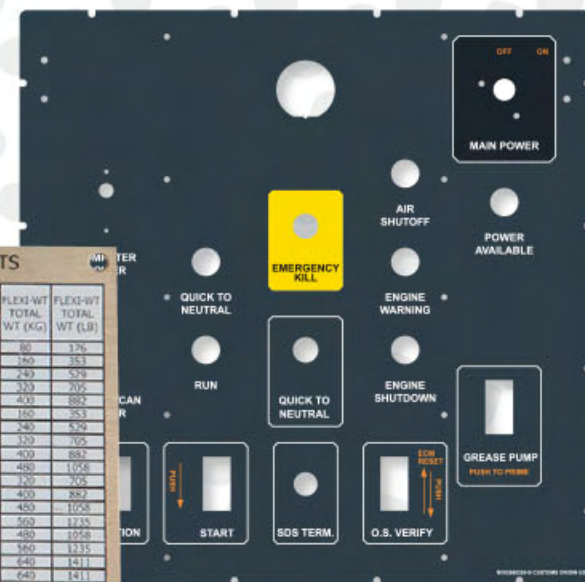

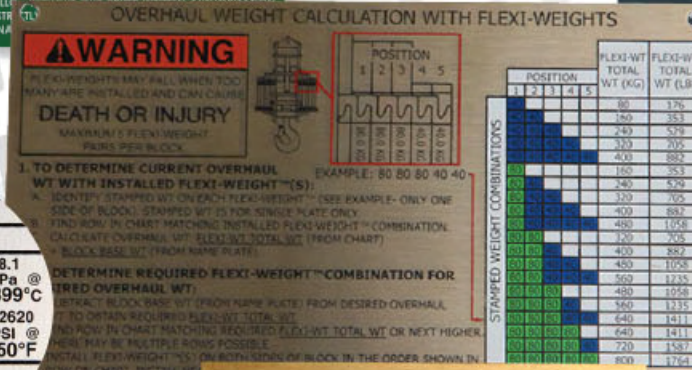

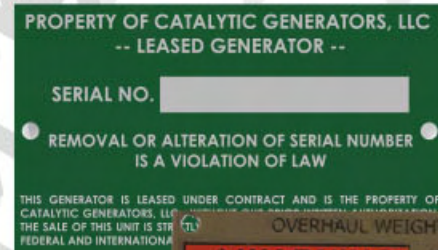

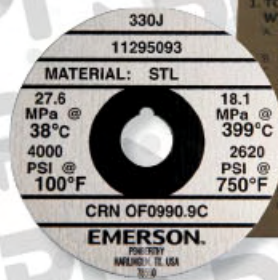

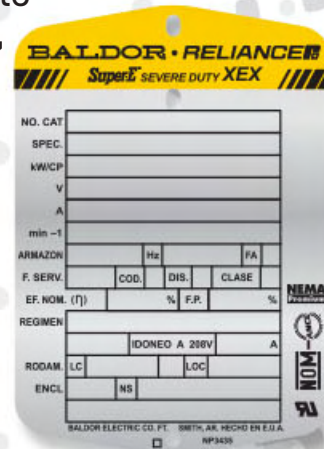

Aluminum - Lightweight and strong, has a high resistance to oxidation, abrasion, rust, and corrosion.

Stainless Steel - Extremely durable material, which retains sheen & withstands abrasion for years after production.

Brass - Can handle extremes in temperature, salt-spray, sun exposure, & is explosion-proof.

Metalphoto® - Extremely durable photosensitive anodized aluminum, with excellent temperature, abrasion, corrosion, and chemical resistance.

Available in .003 to .125" thicknesses.

Decals

Polycarbonate, Polyester,
Polystyrene, Vinyl

NPI can produce a product to your specifications, or can assist in designing a decal that will exceed your expectations. We can recommend materials, finishes, & adhesives for the production and application of your custom decal.

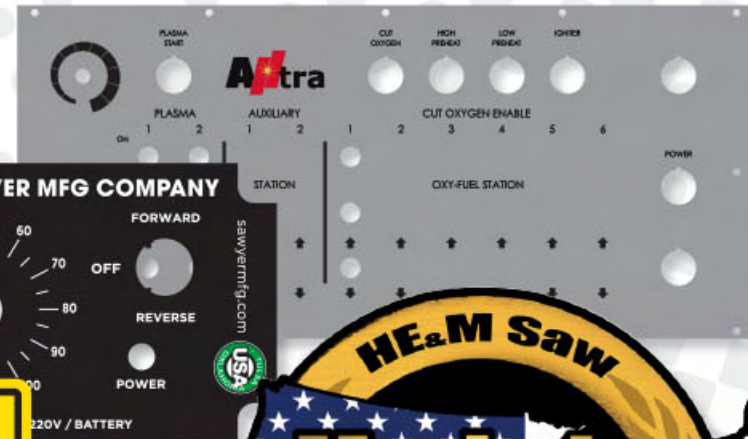

Polycarbonate (Lexan) - Easy to die cut and print, Polycarbonate offers designers more freedom than some other materials. Available in a variety of textures.

Polyester (Mylar) - Known for great clarity, heat, tear, abrasion, as well as oil and chemical resistance.

Polystyrenes & Rigid Vinyls - Maintains high aesthetic quality and dimensional stability, with a low variance for consistency.

Vinyl - Superior printability, scuff & UV resistance.

Vinyl is cost effective & has up to 8 year outdoor life expectancy. Pair with UV inhibiting laminate for long life.

Stickers & Labels

Custom printing made easy and affordable, with fast turnaround and free shipping to Tulsa clients.

Sticker918 is an extension of **NPI Corp's** printing and manufacturing capabilities, designed for small, local businesses in and around Tulsa. In addition to custom sticker, magnet, and label options, Sticker918 specializes in custom lifesize cutouts, fat heads, yard signs, and much more.

& MORE!

Easy Online Ordering!

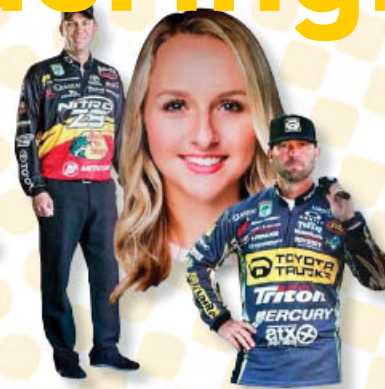

Stickers & Magnets

A fast and easy way to promote your brand, your cause, or your event, our stickers and magnets are printed in full, high-quality color and are available in custom shapes and sizes. These are great takeaways or inserts, or can be sold as brand merchandise.

Packaging Labels

Custom labels for successful branding and packaging. Use on jars, boxes, bags, and everything in between. Available on a roll or sheet in a variety of shapes and sizes, these full color labels really make a product pop!

Fat Heads & Cutouts

Fat Heads and Lifesize Cutouts for athletic events, graduations, weddings, promotional events, and more. Made typically of foamcore, PVC, or aluminum composite, these customizable prints are durable and colorful.

Signs, Banners & More!

NPI can make the signs you need to promote your business or event. From inexpensive coroplast yard signs to more durable iron frame signs. Wayfinding signs, banners, & parking signs.

Business Signs - Interior or exterior logo signs of durable Aluminum Composite, an inexpensive outdoor way to draw attention to you and your business.

Aluminum - Add an upscale look to your signs, with iron real estate frames, or the unique Banjo frames. Custom frames are always an option.

Coroplast - Lightweight, short term, solution for your event or business.

Parking Signs - **NPI** can produce standard ADA signs, or custom parking signs to keep your parking area organized.

Wayfinding Signs - Add a stylish addition to your offices, personalized, or standard room numbers.

NPI can make your signs ADA compliant with tactile braille identification.

Cups - Personalized cups & tumblers make great gifts for your customers, as well as your employees.

Banners - Custom banners are always an easy way to draw attention to your event.

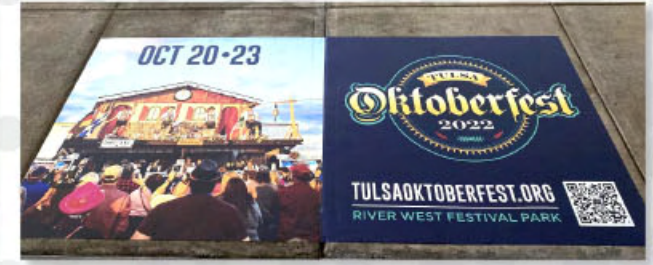

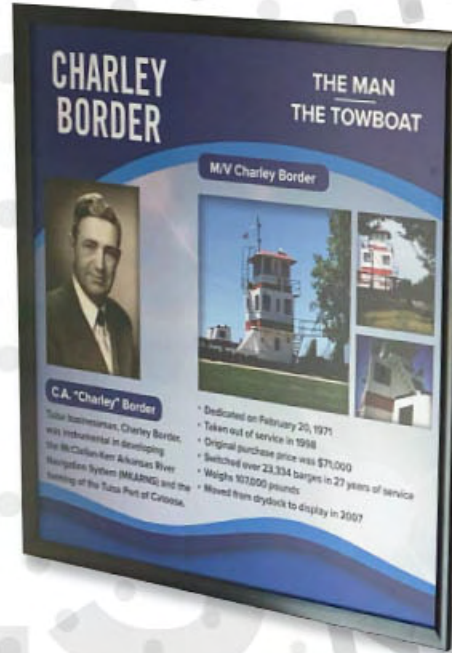

Interior & Exterior Windows & Walls

NPI can wrap your windows and walls to draw attention to your business or make a statement.

Windows - Wrap your business or storefront windows with perforated window film or cut vinyl graphics. Window film can advertise your business, while maintaining privacy and visibility. Vinyl cut graphics give maximum visibility to potential shoppers.

Walls - **NPI** can wrap your exterior and interior walls, from full wall wraps to acrylic or aluminum prints. Wall graphics can brighten up your office spaces, or communicate important messages.

Floors & Sidewalks - Floors or sidewalks are a great place for marketing and advertising. Short-term floor graphics are perfect for drawing attention to new products, or directing people to entrances and exits.

Our Core Values

Excellence -

Striving for extraordinary results, we do our best to be the best.

Accountability -

Holding ourselves accountable to the highest standards.

Growth -

Encouraging each person to reach their fullest potential.

Integrity -

Imparting trust with our employees, customers, & community.

Respect -

Encouraging passion and regard for one another's contributions.

Responsibility -

Continuing to maintain sustainable and planet friendly operations.
